Sole makers of Brewster Wagous, with the Vertical Steel Plates.

The maximum of strength, the minimum of weight, obvicting all spread of the axie, a prevailing source of annoyance to those using road wagons.

Besides the additional strength and security which this great improvement gives to our wagons, an experience of thirty-four years enables us to challenge comparison either in quality or which.

See certificate from General McClellan:—
NEW YORK, June 1, 1871. GENTLEMEN:—
I have carefully examined your Patent Vertical Steel
Plate Axie. I find that the addition of the Vertical Plate
renders the axie about two and a half (2½) times as stiff as
it would be without it. Very respectfully,
GEORGE E. M'CLELLAN.
